university foundation

The University Foundation Program prepares students for college and university studies. It is designed for international students who want to major in business, science, or technology at a Canadian college. Classes are tailored toward the specific need and academic interests of the students. Through individual consultation and learning support, students work on projects and tasks common in Canadian high schools and colleges.

There are three main components to the program:

- 1) language training;
- 2) academic skills development;
- 3) content-based classes on selected topics in business and science. Students develop language and academic skills and have the opportunity to apply their skills by attending a series of electives taught by guest lecturers and speakers with knowledge in selected topics.

The UFP program is considered intensive. In addition to class work, students are expected to complete two to four hours of homework each night.

The UFP curriculum was developed in collaboration with Kester Grant College.

- Electives in business, science and technology
- Guest lecturers and instructors
- One-to-one help and self-directed learning
- Placement and exit testing
- Small classes
- Project-based and task-based learning
- Canadian content and themes
- Orientations to local colleges
- Access to computer lab
- Language and academic skills training

Program Structure

UFP Level One

	MON	TUE	WED	THU	FRI
09:00 ~ 12:00	Reading and Writing for Academic Preparation				Tutorials / Self-directed study

- Reading and responding to academic texts, short stories, and novels
- Listening to lectures and note taking
- Participating in group and class discussions
- Synthesizing, analyzing and applying information

Pathways

Aim of the Program

The University Foundation Program at IH Vancouver aims to achieve to help our students in two ways.

- 1) Ensure quick and painless entry into the Academic program of their choosing by helping them improve their English to a point where academic bridging is possible and /or an acceptable score on TOEFL or IELTS is attainable.
- 2) Ensure a successful transition to academic studies by using a content-based learning approach throughout the program.

The IH Vancouver Guarantee

We are so confident that this program is the best choice for ESL students preparing for academic study that we guarantee it. Should a student successfully complete UFP 3 with a 12-week follow-up in either the IH Vancouver TOEFL or IELTS classes and not have a good enough test score to enter the program of their choice, they can continue studying at IH Vancouver for free until their target score has been attained.

**guarantee requires a minimum of 80% attendance in TOEFL or IELTS preparation classes and completion of the 2-week review unit after UFP 3)*
